Project Design Phase-II Customer / User Journey Maps

Date	20 October 2022		
Team ID	PNT2022TMID51615		
Project Name	Predicting the energy output of wind turbine		
	based on weather condition		
Maximum Marks	4 Marks		

Customer / User Journey Maps:

A customer journey map is a visual representation of the customer journey (also called the buyer journey or user journey). It helps you tell the story of your customers' experiences with your brand across all touchpoints. Whether your customers interact with you via social media, email, livechat or other channels, mapping the customer journey out visually helps ensure no customer slips through cracks.

This process also helps B2B business leaders gain insights into common customer pain points which in turn will allow them to better optimize and personalize the customer experience
